DATE MAILED: 10/03/2005

Please find below and/or attached an Office communication concerning this application or proceeding.

**Advisory Action  
Before the Filing of an Appeal Brief**

Application No.

10/058,029

Applicant(s)

SASAKI, YOSHIYUKI

Examiner

Jorge L. Ortiz-Criado

Art Unit

2655

**--The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

THE REPLY FILED 12 September 2005 FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE.

1. ☒ The reply was filed after a final rejection, but prior to or on the same day as filing a Notice of Appeal. To avoid abandonment of this application, applicant must timely file one of the following replies: (1) an amendment, affidavit, or other evidence, which places the application in condition for allowance; (2) a Notice of Appeal (with appeal fee) in compliance with 37 CFR 41.31; or (3) a Request for Continued Examination (RCE) in compliance with 37 CFR 1.114. The reply must be filed within one of the following time periods:

- a) ☐ The period for reply expires \_\_\_\_\_ months from the mailing date of the final rejection.  
b) ☒ The period for reply expires on: (1) the mailing date of this Advisory Action, or (2) the date set forth in the final rejection, whichever is later. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of the final rejection.

Examiner Note: If box 1 is checked, check either box (a) or (b). ONLY CHECK BOX (b) WHEN THE FIRST REPLY WAS FILED WITHIN TWO MONTHS OF THE FINAL REJECTION. See MPEP 706.07(f).

Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**NOTICE OF APPEAL**

2. ☐ The Notice of Appeal was filed on \_\_\_\_\_. A brief in compliance with 37 CFR 41.37 must be filed within two months of the date of filing the Notice of Appeal (37 CFR 41.37(a)), or any extension thereof (37 CFR 41.37(e)), to avoid dismissal of the appeal. Since a Notice of Appeal has been filed, any reply must be filed within the time period set forth in 37 CFR 41.37(a).

**AMENDMENTS**

3. ☐ The proposed amendment(s) filed after a final rejection, but prior to the date of filing a brief, will not be entered because  
(a) ☐ They raise new issues that would require further consideration and/or search (see NOTE below);  
(b) ☐ They raise the issue of new matter (see NOTE below);  
(c) ☐ They are not deemed to place the application in better form for appeal by materially reducing or simplifying the issues for appeal; and/or  
(d) ☐ They present additional claims without canceling a corresponding number of finally rejected claims.

NOTE: \_\_\_\_\_. (See 37 CFR 1.116 and 41.33(a)).

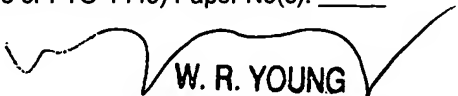

4. ☐ The amendments are not in compliance with 37 CFR 1.121. See attached Notice of Non-Compliant Amendment (PTOL-324).  
5. ☐ Applicant's reply has overcome the following rejection(s): \_\_\_\_\_.  
6. ☐ Newly proposed or amended claim(s) \_\_\_\_\_ would be allowable if submitted in a separate, timely filed amendment canceling the non-allowable claim(s).  
7. ☐ For purposes of appeal, the proposed amendment(s): a) ☐ will not be entered, or b) ☒ will be entered and an explanation of how the new or amended claims would be rejected is provided below or appended.  
The status of the claim(s) is (or will be) as follows:  
Claim(s) allowed: \_\_\_\_\_.  
Claim(s) objected to: \_\_\_\_\_.  
Claim(s) rejected: 1-18.  
Claim(s) withdrawn from consideration: \_\_\_\_\_.

**AFFIDAVIT OR OTHER EVIDENCE**

8. ☐ The affidavit or other evidence filed after a final action, but before or on the date of filing a Notice of Appeal will not be entered because applicant failed to provide a showing of good and sufficient reasons why the affidavit or other evidence is necessary and was not earlier presented. See 37 CFR 1.116(e).  
9. ☐ The affidavit or other evidence filed after the date of filing a Notice of Appeal, but prior to the date of filing a brief, will not be entered because the affidavit or other evidence failed to overcome all rejections under appeal and/or appellant fails to provide a showing a good and sufficient reasons why it is necessary and was not earlier presented. See 37 CFR 41.33(d)(1).  
10. ☐ The affidavit or other evidence is entered. An explanation of the status of the claims after entry is below or attached.

**REQUEST FOR RECONSIDERATION/OTHER**

11. ☒ The request for reconsideration has been considered but does NOT place the application in condition for allowance because:  
See Continuation Sheet.  
12. ☐ Note the attached Information Disclosure Statement(s). (PTO/SB/08 or PTO-1449) Paper No(s). \_\_\_\_\_.  
13. ☐ Other: \_\_\_\_\_.

  
W. R. YOUNG  
PRIMARY EXAMINER

Continuation of 11. does NOT place the application in condition for allowance because: 1.

Applicant's arguments filed 09/12/2005 have been fully considered but they are not persuasive.

Applicants argues that support for the limitation of "determining whether the first rotation mode is suitable for writing the user data in response to receipt of the user request" is found in the BACKGROUND of the invention page 4 lines 10-21.

The Examiner cannot concur with Applicants because no description is found in Applicant's cited portions as to ascertain/map such support.

The Examiner still cannot Aascertain/Map where in the specification including the Detailed Description and the Drawings, support is found. The ONLY Description found relating the "speed suitable" for storing, is in that the controller checks whether the disc is rotating at a speed corresponding to the speed of storage and reproduction Designated by the USER Request, and the controller controls and changes the rotation speed of the spindle motor through a rotation control unit See for example Figure. 6 step S3 and Detailed Description on PAGE 16 lines 6-24. NO determination if a first mode is suitable for recording/reproducing is found. Hence, the limitation represents new matter added to the claims.

Applicant argues that Hashimoto does not disclose determining whether the first rotation mode is suitable for writing the user data.

The examiner cannot concur because the only description found relating the speed suitable for storing is in that the controller checks whether the disc is rotating at a speed corresponding to the speed of storage and reproduction designated by the user request, and the controller controls and changes the rotation speed of the spindle motor through a rotation control unit See for example Figure. 6 step S3 and description on page 16 lines 6-24.

Hashimoto in response to the user request checks whether the disc is rotating at a speed corresponding to the speed of storage and reproduction designated by the user request" (See col. 6, lines 12-62; Figure 1 ref# 5 "rotation control system, controls the rotation of the disk at any rotation mode/speed/velocity at the time of recording/reproducing, inherently has to be suitable for recording/reproducing/ etc... in order to perform these processes of recording/reproducing/ etc..."), as well, the rotation control system controls the rotation of the disk to rotates the disk at any rotation mode/speed/velocity, which inherently has to be suitable for background-formatting/ etc... in order to perform the process of background-formatting / etc...").
